

THE PRIORY ACADEMY
LSST

12th February 2020

Dear Parent/Carer

As part of our ongoing refurbishment work, we are also upgrading and updating some of our closed circuit television (CCTV) cameras and increasing their coverage of the academy site.

To help maintain the improvements we have made to the site and sustain the existing environment and equipment, the work includes plans to install CCTV in communal toilet areas in the academy. These cameras will cover wash-basin areas and the exterior of cubicle doorways only; they will not, of course, be able to observe inside the cubicles.

Our decision has been given a considerable amount of thought and, as always, follows Code of Practice guidance from the Information Commissioner's Office (ICO) as well as all safeguarding legislation. It has also taken into account the similar use of CCTV at other academies within the Priory Trust, and across the country, which has resulted in a positive impact. We believe this step will be in the best interests of all students and staff and will enhance safety and security across the academy. The increased coverage will also help us to continue to ensure that all students are using our site and facilities in an appropriate and mature manner.

If you would like to discuss any of these points in greater detail, please do not hesitate to contact me at the academy.

Yours sincerely

Mr I Dinnie
Assistant Headteacher

Headteacher: Mrs J Hopkinson
