Fashion through the decades

<u>Task</u>

- Choose a decade and research into the fashion and style of that time, create a mood board full of inspiration
- Research into a key designer of the time and produce a fact sheet on them. Use images to show their style and annotate them accordingly.
- Design a capsule collection (the most essential and inspirational pieces) inspired by your research that could feature in an online magazine (aim for 6 pieces)
- Work should be presented creatively in your own way e.g. in a sketchbook, on paper, computer based, on presentation boards
