

## **BTEC Health and Social Care Induction Work**

### **Task 1:**

Unit 1 is completed in Y12 and covers factors that affect how we develop physically, intellectually, emotionally and socially through all the life stages.

Read the "ASQ-3" Questionnaire that is used to assess the development of 2 year olds then answer the following questions. You may need to do further research to answer some of the questions fully.

1. Give 2 examples of the questions that assess communication.
  
2. Describe the difference between fine and gross motor skills and give 2 examples of each.
  
3. Name the 2 other areas of development that the questionnaire assesses.

### **Task 2:**

Unit 2 of the theory part of the course is about working within Health and Social Care. In this unit we discuss the wide range of roles that exist within health, social and education sectors and the settings that they work in. We also discuss important aspects of working in Health and Social care such as policy and legislation, monitoring, barriers to accessing health care and equality and diversity.

Watch the following youtube videos which were included in a programme of learning aimed at speech and language therapists in May 2021 then answer the questions below.

## **What it is like on the ground: issues of diversity with speech and language therapy**

Presented by Naomi Ignatius, senior SLT, Neurosciences SLT Service, Kings College Hospital NHS Trust.

[Anti-racism in speech and language therapy: What it is like on the ground - part one - YouTube](#)

[Anti-racism in speech and language therapy: What it is like on the ground - part two - YouTube](#)

[Anti-racism in speech and language therapy: What it is like on the ground - part three - YouTube](#)

1. What are microaggressions? Include 2 examples in your answer.
2. What is white privilege? Include 3 examples from the video's checklist in your answer.
3. What is meant by unconscious bias? Include one example from the video in your answer.
4. Write 3 more sentences to share more information you found out from the video or to summarise its contents/your own thoughts/reflections about it.
