

## **BTEC Health and Social Care Transition Work**

### **Task 1:**

Unit 1 covers factors that affect how we develop physically, intellectually, emotionally and socially through all life stages.

Read the "ASQ-3" Questionnaire, this is used to assess the development of 2-year-olds, then answer the following questions. You may need to do further research to answer some of the questions fully.

1. Give 2 examples of the questions that assess communication.
2. Describe the difference between fine and gross motor skills and give 2 examples of each.
3. Name the two other areas of development that the questionnaire assesses.

### **Task 2:**

Unit 2 is about working within Health and Social Care. In this unit we discuss the wide range of roles that exist within health, social and education sectors, and the settings that they work in. We also policy and legislation, monitoring , barriers to accessing health care and equality and diversity.

Watch the following youtube videos, which were included in a programme of learning aimed at speech and language therapists in May 2021, then answer the questions below.

[Anti-racism in speech and language therapy: What it is like on the ground - part one - YouTube](#)

[Anti-racism in speech and language therapy: What it is like on the ground - part two - YouTube](#)

[Anti-racism in speech and language therapy: What it is like on the ground - part three - YouTube](#)

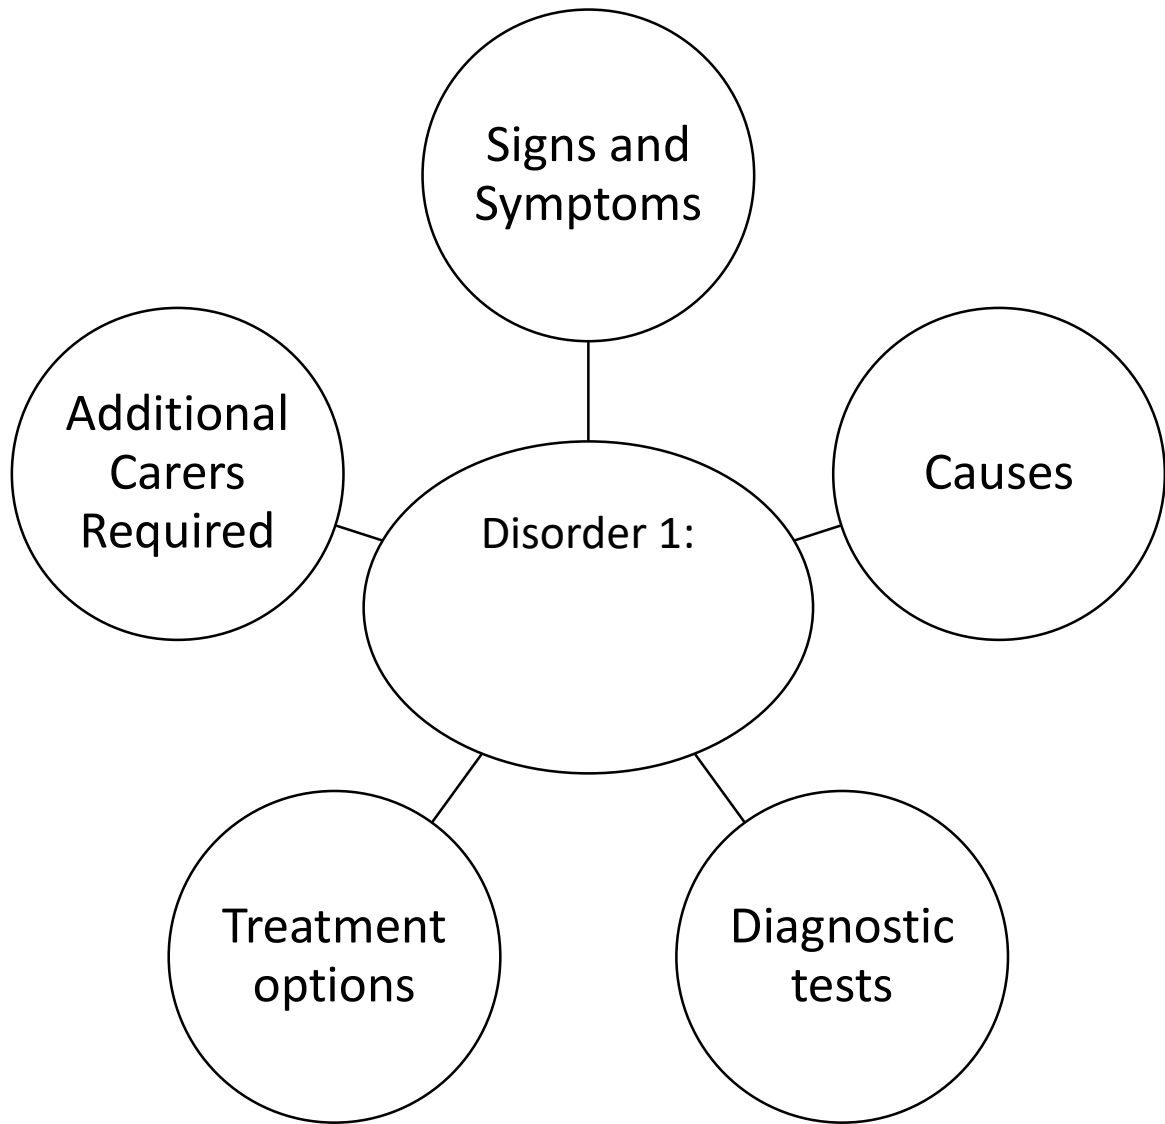

1. What are microaggressions? Include 2 examples.
2. What is white privilege? Include 3 examples from the video's checklist in your answer.
3. What is meant by unconscious bias? Include one example from the video in your answer.
4. Write 3 more sentences to share more information you found out from the video or to summarise its contents/your own thoughts/reflections about it.

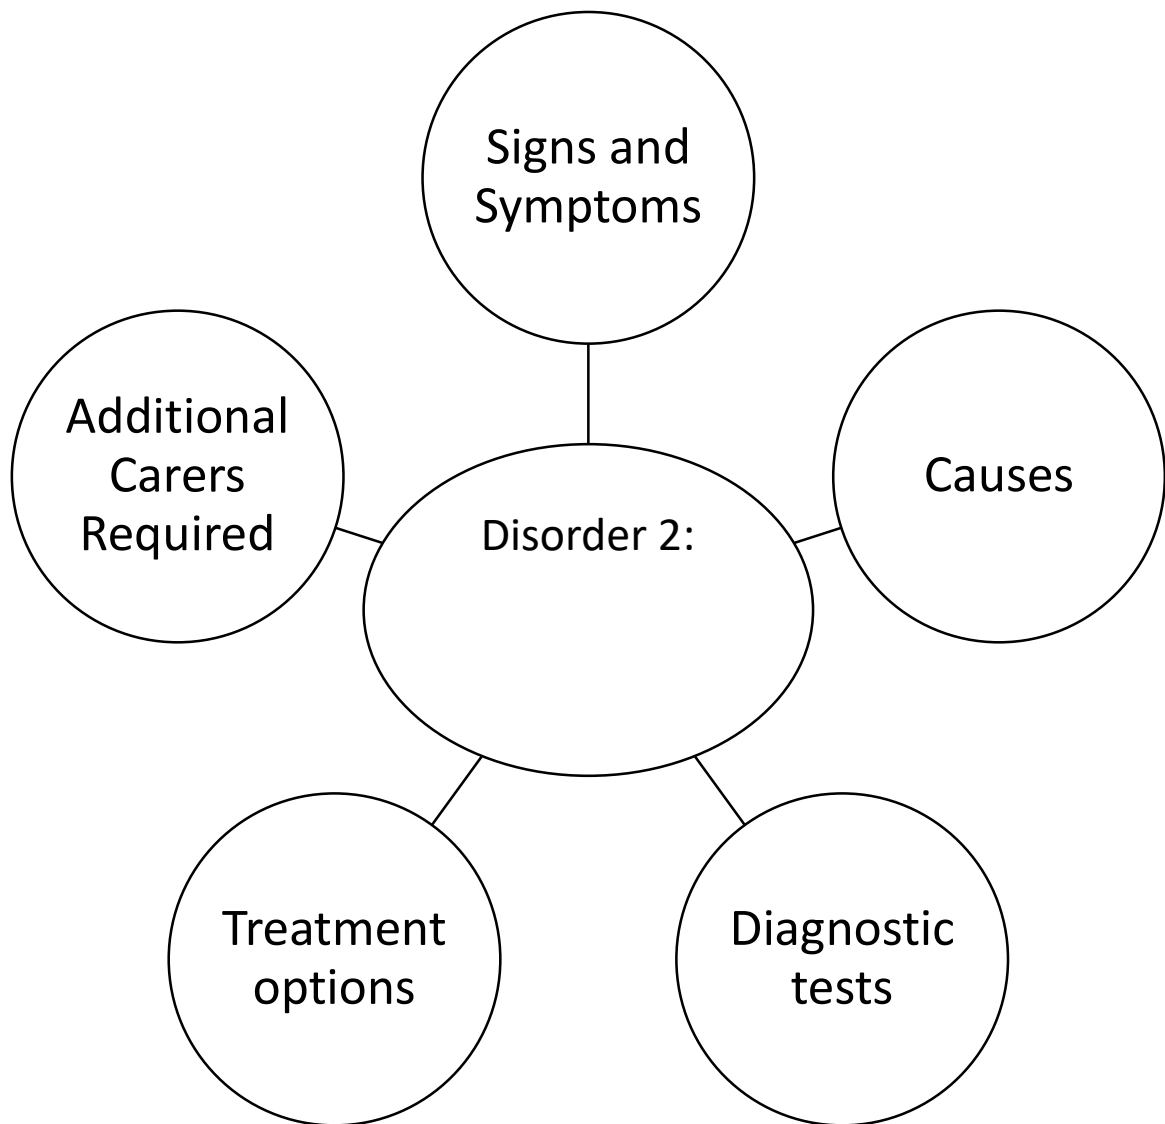

### **Task 3:**

Unit 14 is about comparing and contrasting different physiological disorders. Below are examples of physiological disorders and the body system that they mainly affect.

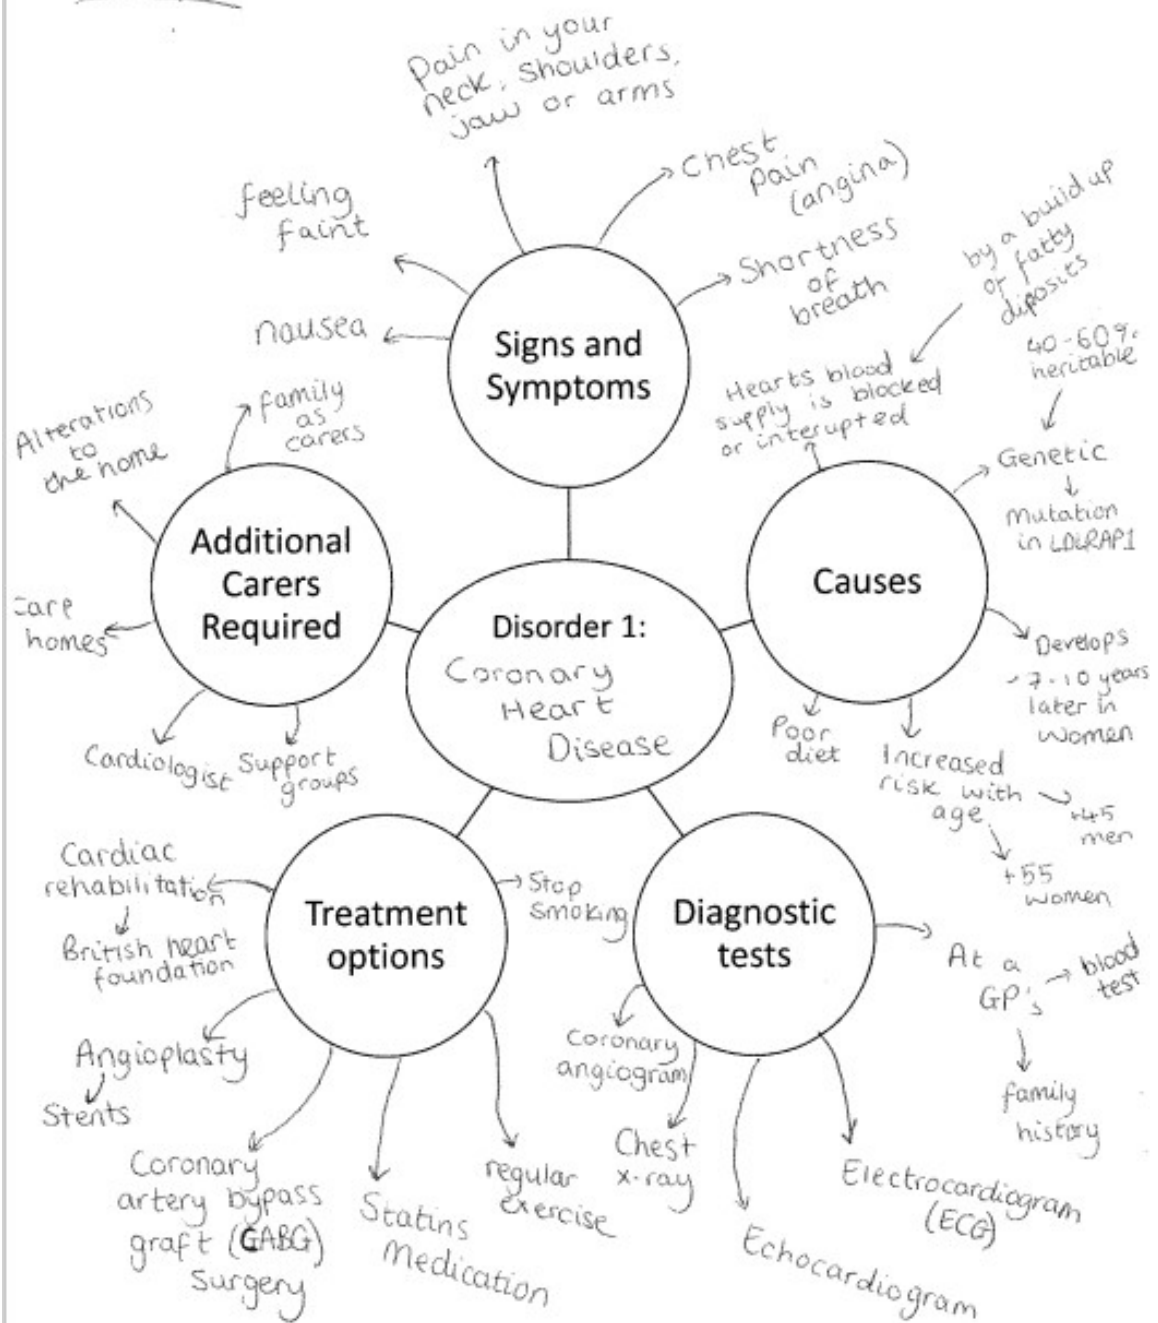

Body System	Examples
Endocrine	Diabetes Type 1, Hypothyroidism, Hyperthyroidism.
Nervous	Parkinson's Disease, Alzheimer's Disease
Musculo-Skeletal	Rheumatoid Arthritis, Osteoporosis
Respiratory	Asthma, Chronic Obstructive Pulmonary Disease (COPD)
Circulatory	Coronary Heart Disease (CHD), Acute Lymphoblastic Leukaemia (ALL), Chronic Myeloid Leukaemia (CML)
Cancer (not a body system)	Bowel, prostate

1. Pick a total of 2 physiological disorders. They must be from different body systems.  
*Example: Diabetes Type 1 and Asthma would be suitable. Diabetes Type 1 and Hypothyroidism would not be suitable.*
2. Complete the mind map below for each of your chosen disorders. You should use the internet to help you with this activity.

Example:

Task 4:

Pick something from the below list, read or watch it. You should write a reflection on your thoughts, this could include about roles and responsibilities, current affairs or general comments.

<u>Format</u>	<u>Name</u>
Books	<ul style="list-style-type: none"><li>• This is Going to Hurt – Adam Kay, 2004</li><li>• The Fault in Our Stars – John Green, 2012</li><li>• Elizabeth if Missing – Emma Healy, 2014</li><li>• One Flew Over The Cuckoo's Nest – Ken Kesey, 1962</li><li>• No Child of Mine – Susan Lewis, 2013</li></ul>
Films	<ul style="list-style-type: none"><li>• Still Alice, 2014 (12A)</li><li>• Hidden Figures, 2016 (PG)</li><li>• To the Bone, 2017 (15)</li><li>• Three Identical Strangers (12A)</li></ul>
