

NAME: Courtney O'Beirne (Lack)

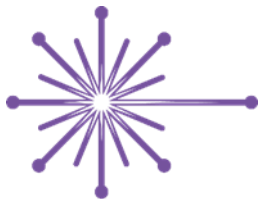

CLASS OF: 2011

After school, I studied Medicine and graduated in 2016. After a short stint in the NHS, I am now working as a Medical Education Fellow for the University of Nottingham whilst I study for my PhD.

My favourite memories of school are the teachers who ignited my passion for their subject.

I am slowly learning that success in life is through surrounding yourself with people who make you become the best version of yourself.

"In this terrifying world, all we have are the connections that we make" – a famous cartoon horse
