

THE PRIORY ACADEMY

LSST

Tuesday, 19 March 2019

Dear Parent/Carer

We have a fantastic opportunity available for all those who are thinking of studying Physics, Engineering or Maths at university.

Loughborough University are coming to The Priory Academy LSST on **Wednesday 5th June 9:00am to 11:00am** to provide a session in which an engineering challenge will be set. Please read below for the details on the event.

“Loughborough University, will set a ‘Smart Mobility Design Challenge’, briefing students to work in groups, looking to the future to imagine and then design on paper something for mobility. This is based on a challenge which Ford sets its own engineers and also which Loughborough University students work on. Students present their ideas back to the group. We will then proceed to talk about STEM careers and various different industries and roles available, as well as a variety of the HE courses available at undergraduate level and beyond. Designs will be judged and a winner announced at the end of the session with a small prize.”

The university will also be bringing current students for those involved to ask questions and engage with in conversations. This session is free but has a limit of 50 students to be involved. If your child would like to register their interest then please fill in the attached slip and hand it in to Student Reception.

Yours faithfully

Mr D Hill
Teacher of Science

Student name: _____

Tutor group: _____

I would like my child to be considered for the Loughborough STEM event occurring on Wednesday 5th June 2019.

Signed: _____

Date: _____

Headteacher: Mrs J Hopkinson
